- 55% Cellulose / 45% PP
- White Hydroknit Material

DNM12K is an absorbent light non woven fabric manufactured from a blend of cellulosic and synthetic fibers. This strong, absorbent substrate is suitable for a range of hard surface and delicate wiping applications.

This Latex free fabric is soft, highly absorbent and has excellent strength characteristics ensuring its versatility. It is creped to create better and faster absorption and dirt pick up features and is economical both in use and cost.
